# Vision & Mission

## 01. Vision

Nowadays, the Lifestyle of people has changed drastically, not just their daily routines but also their food habits.

With Ayurveda, we aim to motivate people towards a healthy lifestyle naturally.

## 02. Mission

Our Company was established since 2014 with a mission to bring new international standards of Ayurvedic components and delivery of Ayurvedic practices. In recent years Ayurveda has been getting prominent recognition on a global scale. Its deep-rooted philosophy of keeping the body and mind in balance, creating perfect health and attaining a state of inner freedom (nirvana) has attracted people from all walks of life worldwide.

Urinary calculus is a calculus formed in any part of the urinary tract. Calculi may be large enough to cause an obstruction in the flow of urine or small enough to be passed with the urine.

A major causative factor in the development of calculi (stones) is elevated cholesterol levels, which form the basis of that which holds stones (calculi) together.

Stoncot-KFT is a unique formulation to destroy and reflux out any calculi in the urinary tract (Kidney, Urethra, and Urinary bladder)
